EDUCATION

University of Maryland, College Park - Bachelor of Science in Information Science | August 2020 – May 2025

- Dean's List, Fall 2024 – Awarded for academic excellence in the College of Computer, Mathematical, and Natural Sciences
-

WORK EXPERIENCE

Allegis Group - Third Party Risk Management Associate | December 2025 - Present

- Supported Third Party Risk Management vendor assessments to identify onboarding risks and enable informed business decisions prior to vendor engagement.
 - Applied a risk-based approach to assign third-party risk ratings, leveraging SecurityScorecard, Dun & Bradstreet, and World-Check One to evaluate cybersecurity, financial, and compliance risk.
 - Collected and evaluated vendor due diligence questionnaires, tailoring assessments based on vendor services, data access, security posture, and overall risk exposure.
-

ACADEMIC & PERSONAL TECHNICAL PROJECTS

AI-Powered Threat Detection Systems - Personal Project | March 2026 - May 2026

- Developed an AI-powered cybersecurity platform using Python, TensorFlow, and PyTorch, leveraging BERT, CNN, LSTM, and Autoencoder models to detect and classify AI-generated cyber threats in real-time.
- Implemented a multimodal threat analysis pipeline that processes emails, images, and text using natural language processing and computer vision techniques to identify malicious content and adversarial attacks.

AI Adversarial Attack Simulator - Personal Project | March 2026 - May 2026

- Develop an AI adversarial attack simulator using Python, PyTorch, and Scikit-learn, implementing FGSM, PGD, and C&W attack methods to evaluate ML model robustness..
- Built an automated defense testing platform using penetration testing and security validation techniques to protect against adversarial ML threats.

Information Science Project with Stakeholders - Academic Project | January 2025 - May 2025

- Collaborated with a team to design and evaluate a real-world solution for the Campus Community Connection in SQL and using visualization in Tableau.
 - Worked directly with external stakeholders to define project goals and gather user requirements.
 - Implemented multi-threading to optimize data processing tasks.
-

SKILLS

Application: C, C++, Python, SQL, R-Studio, Java, JavaScript, Processing, MATLAB, MS Office, Tableau, HTML AI Prompt, Linux/Unix

Languages: English, Korean

CERTIFICATION

CompTIA Security+ | July 2025

- Earned the CompTIA Security+ certification with a score of 795, demonstrating practical, hands-on skills in securing networks, applications, and devices while ensuring data integrity, confidentiality, and availability.
-

EXTRA-CURRICULAR ACTIVITIES

Naval ROTC

- Attended daily leadership meetings and physical training sessions
